

WOODFROG IN ONE PAGE

Data, analytics and AI, for modern businesses.

Pune, India · since 2023 · delivering across India, APAC, the UK, Europe and the US

50+

projects delivered

20+

clients

6 weeksmedian to first production
artefact**3**

people per engagement, no bench

Four things, done end to end.

WHAT WE DO

01

Data Foundations

Build trusted data platforms that power analytics and AI.

02

Analytics

Turn data into insights that drive better business decisions.

03

AI

Adopt and scale AI with confidence.

04

Digital Engineering

Modernise systems and build applications for growth.

</>

On a calendar, not a roadmap.

HOW AN ENGAGEMENT RUNS

WK 1

WK 2

WK 3 ◆

WK 4

WK 5

WK 6

WK 7 →

Audit**Build****Operate**

Fixed fee. Two calls and a written one-pager, yours to keep either way.

Weeks 2 to 6. Something real in front of real users by week three ◆, then built out in slices.

Onward. Quarterly reviews; the people who built it pick up the phone.

PROOF

60–70%

StockJarvis

A Claude intelligence layer in India's precision trading platform: research and documentation 60 to 70% faster, on a platform with 750 users.

10+

Design Asylum Studio

Their engineering partner: 10+ projects since 2025, two months from approved design to production.

And many more. woodfrog.tech/case-studies ↗

WHAT WE HAVE BUILT

Antvia

A lakehouse plus a next-generation BI tool, in your own cloud.

antvia.io

Uloborus

Manufacturing operations for Indian process manufacturers.

uloborus.com

Glimvia

Mobile-first KPI alerts on Apache Superset.

Questions? Ask Priya, woodfrog's digital representative. woodfrog.tech/talk ↗

WHERE WE WORK

Financial services

Retail and commerce

B2B SaaS

Public sector

Manufacturing

Logistics

Marketing Firms

Healthcare and life sciences

And yours.

Start with the fixed-fee Week 1 audit.
